Chairman's Report

The year 2021 is gone and 2022 looks just as uncertain as the past year. The difference seems to be that we are finding how to live with the Covid virus. The Chapter was able to hold two judging meets and judging schools. Ten members attended the Holiday Social which, considering the Covid situation, was not bad. The food and fellowship was great and those in attendance enjoyed the evening.

The Annual Meeting was held and officers for 2022 were elected. While the current officers have all agreed to continue service in 2022, we will be looking for candidates for new officers for 2023. We are looking forward to returning to Corvette Expo and hoping for a full year of activities in 2022. Best wishes to you and yours in the New Year. Please stay safe and healthy and we look forward to seeing you at Corvette Expo in March.

Southeast Chapter – NCRS Annual Meeting Report

Officer reports

Chairman Tom Beuglas

1. Top Flight Chapter Status

No Top Flight Chapter Program this year due to Covid.

Jim Krakau will coordinate the program in 2022

2. Charity

The chapter has donated \$1000 to The Gary Sinise Foundation and requested matching funds from National.

Secretary Janice Mason and Treasurer Don Mason not present.

Judging Chairman Rich Mauser

Three judging events planned for 2022 starting with Corvette Expo followed by Buyavette in June and back to Greg Wyatt's in October. Black Fox Lodge at the March meet may be full.

Charity Event

None held this year

Special Recognition of Jim Krakau

Special thanks to Jim for agreeing to serve as Vice Chairman in addition to doing the newsletter and other media. Both are big jobs requiring time and effort to help keep the chapter going.

Election of Officers for 2022

Special thanks to Wayne East for agreeing to be Chairman of the Nominating Committee. Wayne received no additional nominations and no nominations were received from the floor.

The following nominations were submitted and approved by acclamation by voice vote

Chairman	Tom Beuglas
Vice Chairman	Jim Krakau
Secretary	Janice Mason
Treasurer	Don Mason
Judging Chairman	Rich Mauser

New Business

A discussion was held about the need to change the constitution to allow for proxy voting in some form for those who cannot attend the Annual meeting. Proposals will be presented to membership for consideration and action.

Vice Chairman's Report

Farewell to 2021 and welcome 2022. As your new Vice Chairman, I look forward to assisting wherever I can to keep the SE NCRS Chapter a great place to learn about the enjoyment of Corvettes. This includes restoration, preservation, history and meeting like-minded enthusiasts.

I am looking forward to 2022, as there are 4 regional meets, our March meet in Pigeon Forge, Tn, our June meet at Buyavette in Atlanta and the national convention in Mobile, AL. All are within driving distance of our area. I am hoping to attend a majority of these events, add to my judging experience and meeting all of our members that attend. Speaking of judging, the best way I found to learn the important points of restoring Corvettes is to attend meets as an observer judge. As an observer judge, I am able to assist in reviewing the Technical Information Manual and Judging Guide with experienced judges and get up close scrutiny of various Corvettes I am interested in. Plus, meeting great Corvette admirers during this journey is a huge bonus.

There may be other ways of meeting fellow SE NCRS members. Are you interested in hosting a tech session? Are you working on your Corvette and interested in sharing your experience or need tech support with your project? Are you interested in hosting a picnic, garage tour or road tour once the weather gets warmer? Let me know what you are interested in and we can make it happen.

Jim Krakau
Vice Chairman

Judging Chairman's Report

Happy New Year. Hopefully we remain on track for our judging events and the pause caused by Covid continues to stay in the rearview mirror.

Currently there are no judging results to report since our Fall 2021 event at Vintage Corvettes in Summerville, Ga.

Our next event is at the Corvette EXPO in conjunction with Cooper Events in Pigeon Forge, Tenn. on 3/18 & 3/19. Everyone seems to be excited to be back at the LeConte Event Center in Pigeon Forge. We have been open for registration less than a week and have several registrations, including Flight Judging and Sportsman entries. We still have room for a few more flight cars, so please register asap, as we do have limited space and cars will be accepted on a first-come, first- served basis.

As always, if you have any judging-type questions, please feel free to contact me.

Thanks for being a Southeast Chapter Member. I look forward to seeing you in Pigeon Forge.

Museum Ambassador's Report

Well, 2021 has passed and most, if not all, of us have been touched by COVID in the last 21 months. The COVID cloud still hangs over our world and in the last month of 2021 a string of tornados cut a path of destruction across the heartland of our country bringing even more death and destruction. Our hearts go out to all of the victims of the storms and their families as they are recovering from the damage incurred on December 11th and afterwards.

The NCM, Motorsports Park and the GM Assembly Plant in Bowling Green found themselves in the paths of the storms also. While the Museum itself sustained only minimal damage, the Motorsports Park was not so lucky. Several buildings sustained major damage with roofs being ripped off. The Museum was only closed over the weekend after the storms due to power outages and debris in the roads. Museum officials have verified that all vehicles and artifacts are safe and secure. The Motorsports Park is not safe for visitors and all activities are currently suspended until further notice.

The GM Assembly Plant received the worst damage. While the Museum has made no comment as to the extent of the damage, news reports have shown substantial roof damage in certain areas of the plant, fire damage as a result of the storms, and some 115 near- complete 2022 Corvettes, still on the assembly line, that will now go to the crusher because of water damage! Re-orders for these cars will now, reportedly, be shuffled back into the current order stream for production. Local dealers will contact owners and work out details.

The NCM has been working hard in 2021 as is evidenced by the number of awards they have received from various organizations. They have received awards for their educational programs, online content, exhibits, creativity, community impact, marketing, community support and engagement and more. Thanks to all the leaders and staff that have worked so hard to bring all of this recognition to the Museum.

The first big event for the Museum in 2022 will be the annual NCM Bash that will be held April 28 – 30 on the grounds of the Museum. A 2022 Artic White Stingray will be raffled off that weekend as a part of the event. Ticket prices are only \$20.00 and there is no limit on the number of tickets to be sold for this car.

September 1 – 3, 2022 will mark the 28th anniversary celebration for the Museum.

As always, remember the raffles!! The first two raffles for 2022 are as follows. On January 13th a 2022 Black Stingray Coupe will be raffled off. Ticket prices are \$100.00 each and a total of 2,000 tickets are available for sale. As of this writing there are 1,255 tickets still available. Then, on February 3rd, a 2022 "Build Your Own" Corvette will be raffled off, or your choice of \$70,000.00 in cash. Ticket prices are \$250.00 each and a maximum of 1,500 tickets will be sold. As of this writing there are 1,394 tickets still available.

That is all for now, let's work to make 2022 a much better year for us all!

Membership Report

From the Desk of Janice Mason, Southeast Chapter Secretary & Membership/Event Administrator

From the Desk of Janice Mason, Southeast Chapter Secretary & Membership/Event Administrator

I am happy to report one new member to our chapter since the last edition of the Flagbearer. Please join me in welcoming:

Ricky Stewart, member #68548, from Marietta, GA

We look forward to getting to meet Ricky, learn what makes him a “Corvette guy” and hope to see him at our future judging meets. Rick is retired from the Air Force Reserves, has been a car enthusiast since he was a kid and enjoyed muscle cars. He now owns a 1970 LT1 convertible and plans on prepping it for judging.

As of December 31, 2021 we have a total membership of 92 members. I continue to get reports from the NCRS on new members who have joined the NCRS National and who live in our region. Hopefully follow-up with these contacts will continue to result in adding new members to our Chapter.

Dues help to ensure the Chapter's continued success in fulfilling its purpose of preservation, restoration, and enjoyment of early Corvettes and to conduct meetings, tours, and programs of any sort relating to the development and history of Corvettes.

Dues may be paid on line at NCRS.org, services, renewal membership, or by mail to the address below. Chapter dues are \$30 per year. I am attempting to send out dues notices on a monthly basis. However, you may contact me at any time if you are unsure about the status of your dues.

Note: I no longer have a home landline, so please use my cell to contact me directly -770-757-5677.

Note: I am “retiring” from the secretary position effective December 2022. If you know of someone who would be interested in taking over this position, please let me know. I would like to be able to train someone during this year so they will be able to assume the responsibilities of the secretary/membership manager position beginning with the March judging meet in 2023.

LAZY RUNNING SMALL BLOCKS – CAN'T FIND THE REASON? A LITTLE KNOWN FACT

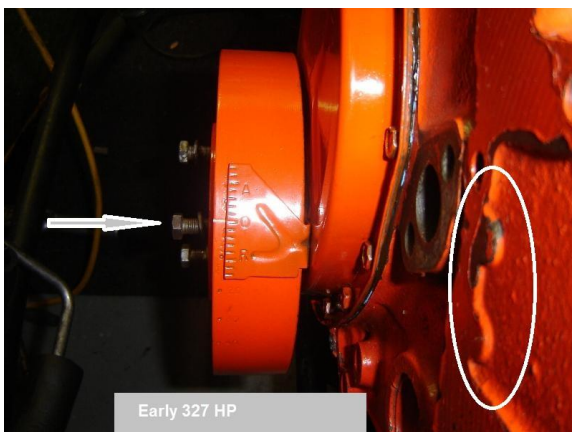

New aftermarket HB

Courtesy of Jeff Smith -- Engine Labs

You finally found your new classic Corvette: the engine looks right, the pad looks good, but you can't get the performance the 283-327 should have. It runs *l a z y*! When cruising at 55 one cylinder will fire approximately 1100 times in one minute, or, 18 times a second. Also, the spark plug will fire at 8,500° - 11,000°F to ignite the air-fuel and BOOM!

Ignition timing is tough to understand but easy to adjust. Here is a long reach problem about which little is known. We all adjust the timing using the Harmonic Balance (HB) and the timing tab. The HB's in the 50's and 60's were all manufactured with the Woodruff Key almost aligned with the timing mark on the HB. About the time General Motors dropped the small journal crank in late 1968-1969 they moved the mark on the HB approximately 12 degrees retarded from the key position. Since then most manufacturers used that setting on their new HB's.

Early 327 HP

The new HB's will fit the old cranks. An easy check: use a screwdriver and check your Dead Top Center (DTC) with the HB. That could be the problem. 10-12 degrees makes a *l a z y* engine and surely makes the engine run hotter. That is not good with unleaded gas.

Quick Tips

When looking for Corvette shows in our area, I came across a great online Corvette magazine that you should check out. It is Vettes of Atlanta Magazine (www.vettesofatlanta.com) and provides listings of Atlanta area events, forums and resources. If you sign up, you will get a weekly feature article on Corvette related topics in our SE NCRS region. Also, I corresponded with Ron Worley, the editor, and he is interested in doing a future article on us.

Did you know Paragon Corvette Reproductions offers a 10% discount to NCRS members. They also offer a 15% discount on orders >\$500.00. Ask your favorite Corvette parts vendor if there is an NCRS member discount.

Our chapter recently obtained videos of the 2018 judging school held in Dallas in 2018. The videos include judging, reference manual, operations and paint. If you are interested in viewing, contact me and I can send them to you on a jump drive. Jim Krakau

NCRS Southeast Tour Itinerary to Mobile Alabama July 2022

SE NCRS Chapter member Don Warmuth will be leading a road tour to the NCRS national convention in July.

We will start on July 20 from the Train Capital of South Carolina - Central, SC. (Near Clemson.) Day Zero (July 19) will include an evening BBQ at the Warmuth estate.

-On day one will leave from Central and wind through the Appalachian foothills to Chattanooga, TN. The day will be capped off with dinner at the Terminal Brewhouse in "The Chattanooga Choo Choo."

-On day two we will tour the Coker Tire Museum with all its great antique cars. After lunch we will take the short drive to Huntsville, AL.

-On day three we will tour Rocket City, home to the largest space museum in the world. Personally, I want to include the Intuitive Planetarium inside the museum. In the afternoon we will again take a short drive, this time to Tupelo, MS – birthplace of "The King." We should be able to see the Elvis Drive-in, his birth house, and his church.

-July 23 will be day four and we will drive south through the beautiful state of Mississippi to the Mobile, AL area.

Chevrolet Shipping Data Reports from 1965-1972

National Corvette Restorers Society is pleased to announce that we can now provide certain information for model years 1965 through 1972 for Camaro, Chevelle and Nova through the efforts of the NCRS and permission granted by General Motors. We believe our fellow hobbyists and car clubs have desired this information since it became available for Corvettes several years ago.

The information consists of the dealer code, dealer name, dealer location and the production date the car was produced. The good news is this may allow you to find the original dealer where your Chevrolet Camaro, Chevelle or Nova was shipped and possibly open the door to finding more information about your Chevrolet.

A Camaro, Chevelle or Nova Shipping Data Report can be ordered only online. Membership in NCRS is not required. The fee will be \$50 payable by credit card or PayPal. You will receive via USPS a letter with the information which includes the NCRS official seal. In limited cases the dealer code is not available or readable and, in this case, a full refund will be made. www.chevymuscledocs.com
